October 2023

From the desk of Tim Ploen, President

I want to take this time to recap my experience and what I've learned while serving on the LBMC Board of Directors. As most of you are aware, of the current board members sitting here today, none of us were sitting here at our previous annual meeting. This in itself has presented some challenges and opportunities. The dynamics of what all is entailed in operating this business has offered an incredible learning experience.

This morning we will hear reports from each of the boards and committee leaders that work to keep our community safe, clean, fun and healthy. While this may sound like a small feat, it requires the work of many individual volunteers sacrificing a lot of their time to make this happen. I have found sacrificing some of my time to be rewarding, whether it be on a lake clean-up day and being able to look back at the work we completed or from a board meeting, working together and closing the meeting with a sense of accomplishment. I want to extend a personal thank you to each and every person who is able to make the time to commit to our community in any fashion.

One of the key things I've learned, many times something initially perceived as a complaint when in actuality is a concern and, most of the time due to lack of information. Given the opportunity, listening and talking this through results in an outcome of a better understanding and the opportunity for more open future conversations. It is important that we are all involved and keep informed with complete and accurate information. Today's society offers many methods of getting information. The best way to do this is by attending as many of the 11 previous LBMC board meeting as possible. We have seen an increase in attendance of these meetings over the past few months which is fantastic, it seems the more people we have at our monthly meeting the smoother things are. While this annual meeting is important, part of the purpose is to recap our previous monthly meetings.

In closing, I'd like to encourage everyone to be involved as much as you can, life is busy, volunteer as you can, even if it's for a portion of the project or event and keep informed by attending monthly meetings as your time allows and don't hesitate to reach out to a board member directly with any questions or concerns. This will give you reliable and accurate information. Thank you all for attending and wishing everyone a safe season as summer has come to an end.
